01

Microneedling

Microneedling is a minimally invasive skin treatment that uses fine needles to stimulate the skin's natural repair processes.

IT MAY HELP IMPROVE THE APPEARANCE OF

i. Acne scars

ii. Fine lines & wrinkles

iii. Enlarged pores

iv. Uneven skin texture

v. Hyperpigmentation

vi. Stretch marks

Every treatment begins with a doctor-led consultation and assessment, so your plan is tailored to your skin and your goals.

Botox

02

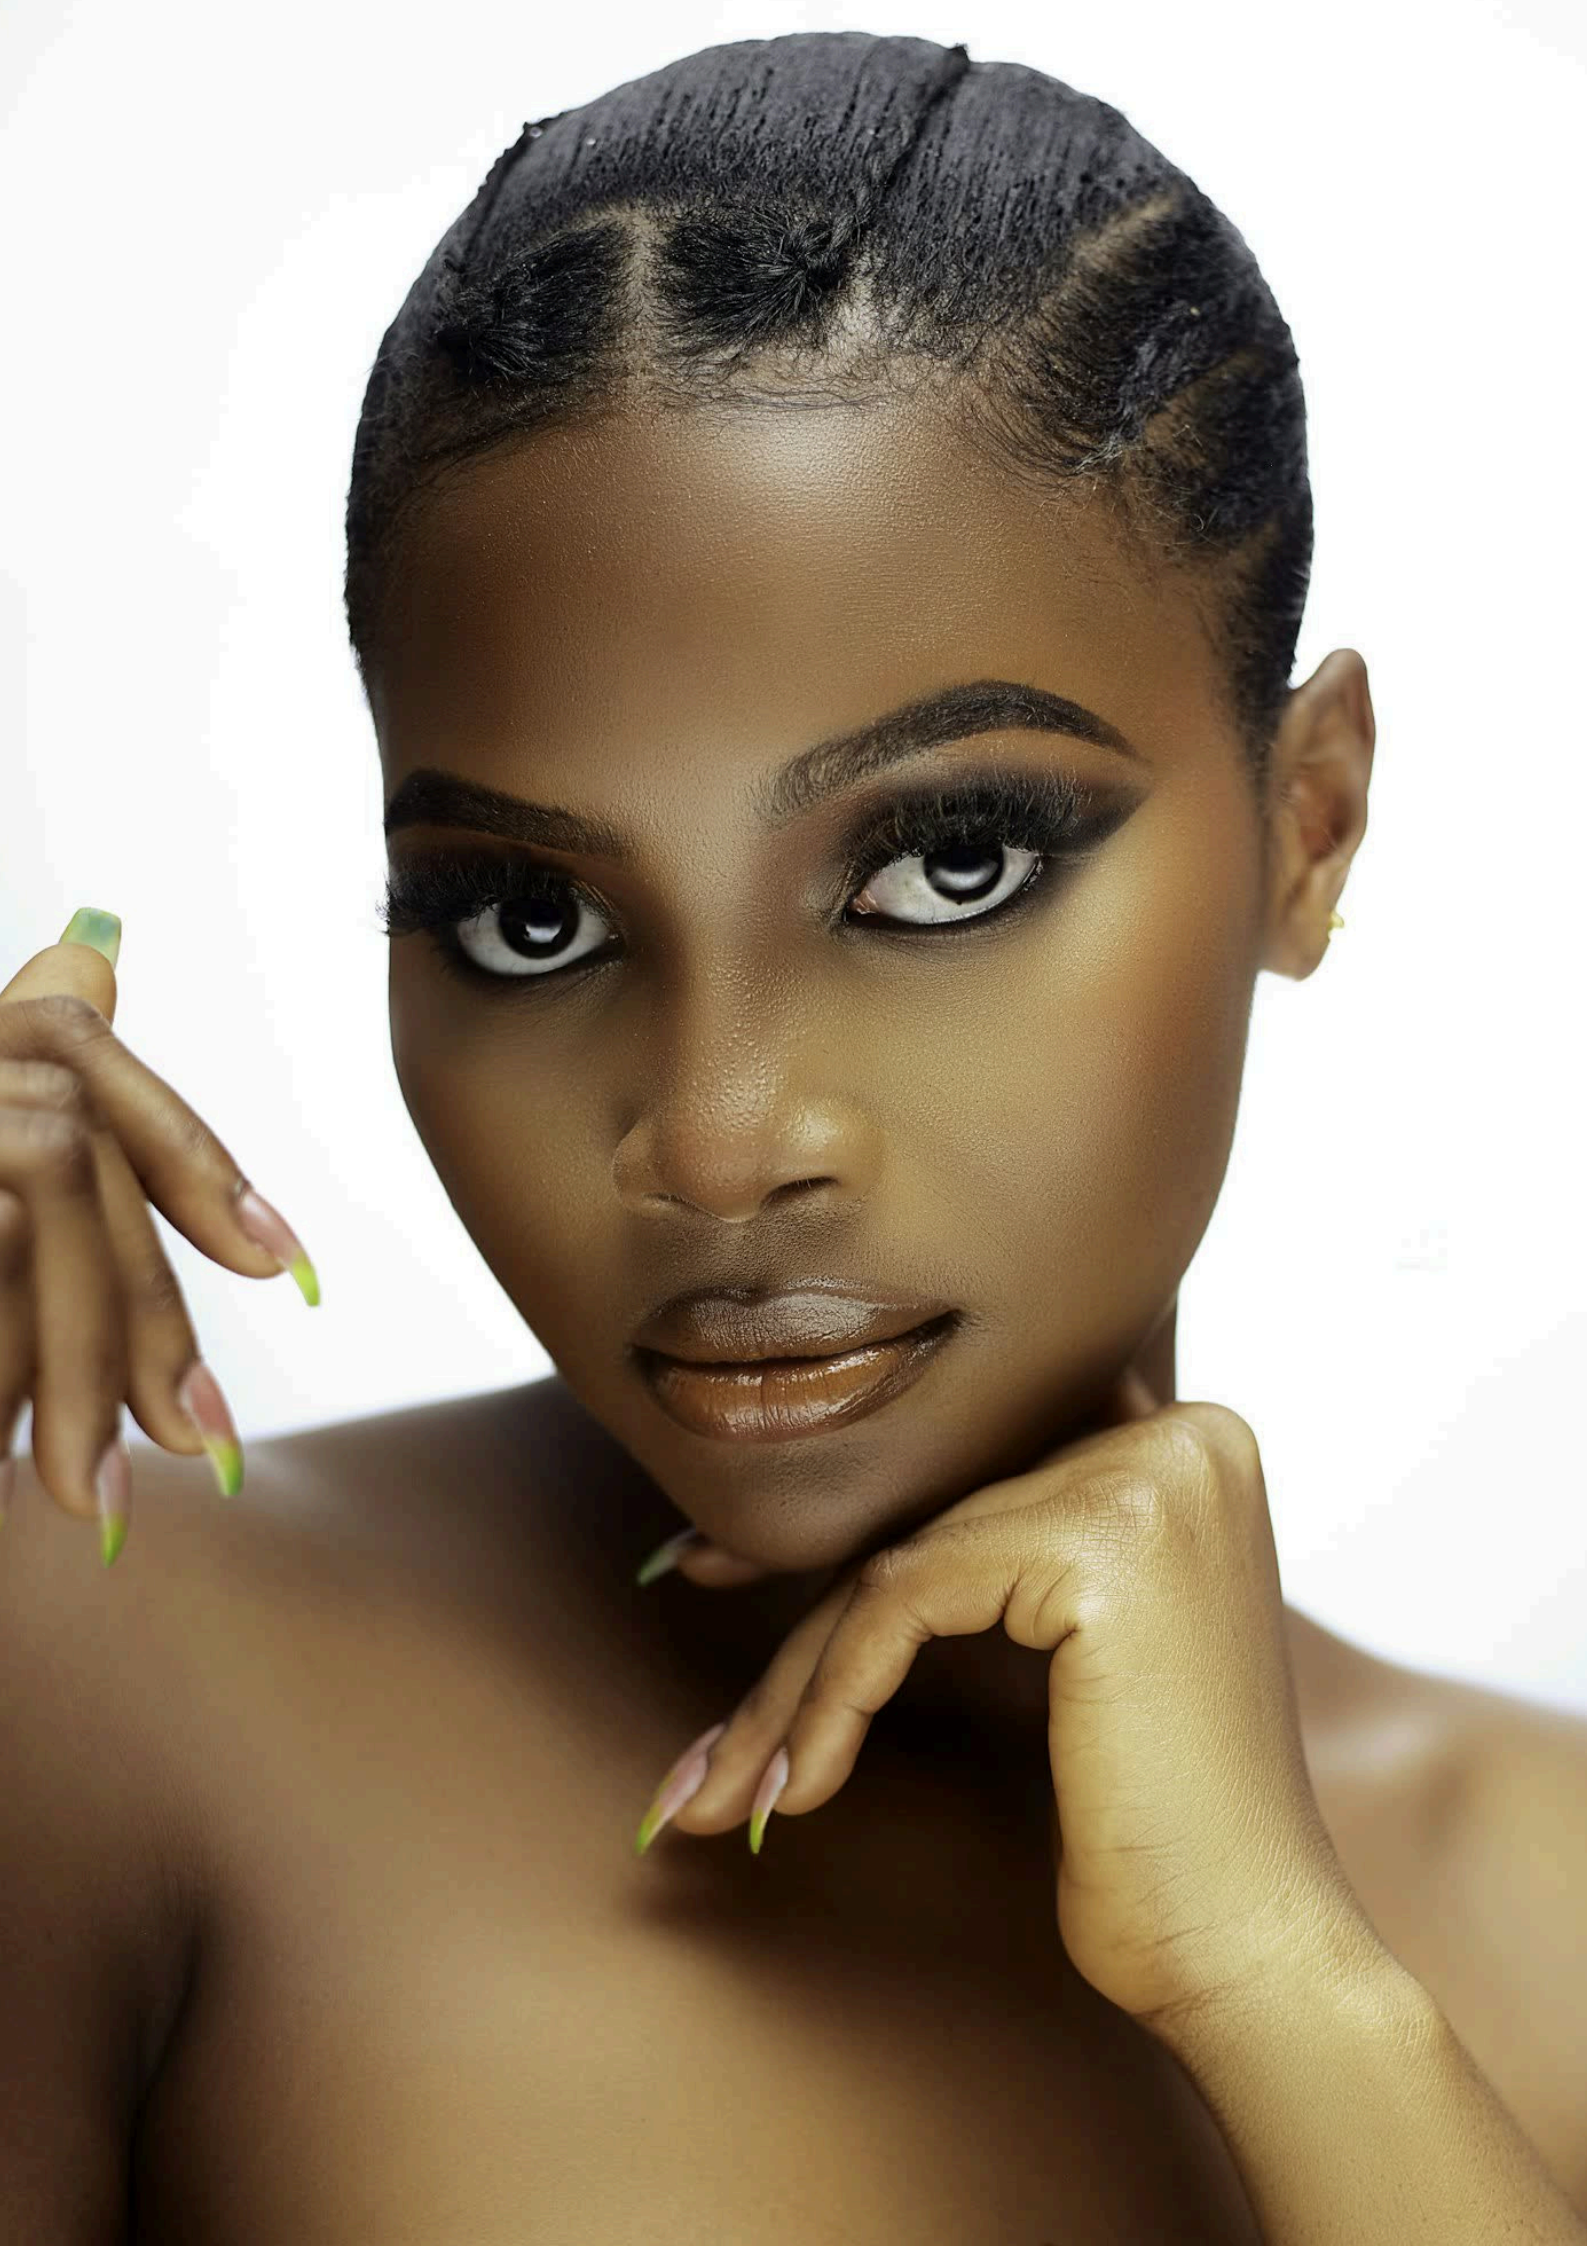

Botox treatments can be used to reduce the appearance of dynamic facial lines and wrinkles, helping create a smoother and more refreshed appearance.

Dermal *Fillers*

03

Dermal fillers can be used to restore volume, enhance facial contours and improve the appearance of certain lines and wrinkles.

"Our approach focuses on balanced, *natural-looking* enhancement."

04

Acne *Treatment*

Acne can affect both confidence and skin health. Our Dermatologist provides individualised acne management programmes based on the type and severity of acne and your skin needs.

05

Keloid *Treatment*

Keloids can be uncomfortable and cosmetically distressing. Following a detailed assessment, we provide treatment options aimed at reducing their size, symptoms and appearance.

06

Stretch Mark *Treatment*

Stretch marks can occur following pregnancy, weight changes or periods of rapid growth.

We offer treatments designed to improve their appearance and skin texture.

07

Skin Tag *Removal*

Skin tags are skin growths that can sometimes cause discomfort or cosmetic concern.

We provide professional assessment and removal of suitable skin tags using appropriate clinical techniques.

08 · HAIR RESTORATION

Hair Loss *Treatment*

Hair loss can affect both men and women and may have several underlying causes.

Our hair loss services begin with an assessment to identify possible contributing factors.

09 · BODY CONTOURING

Non-Surgical Body Sculpting

with Mesotherapy

Our non-surgical body contouring services are designed for individuals seeking to address localised areas of concern without surgery.

Our approach to *aesthetic care*

i.

Personalised Consultations

Every individual is different. We begin with a consultation with our Aesthetics Doctor to understand your concerns, assess your suitability and develop a treatment plan tailored to your goals.

ii.

Natural-Looking Results

Our focus is on enhancing your natural features rather than creating an artificial appearance.

iii.

Professional & Client-Centred Care

Our treatments are provided in a professional healthcare environment, with attention to safety, comfort, privacy and appropriate follow-up.

iv.

A Comprehensive Range of Services

From facial rejuvenation and skin treatments to hair restoration and non-surgical body contouring, we provide a range of aesthetic solutions under one roof.

YOUR JOURNEY STARTS WITH A CONSULTATION

Your journey starts with a *consultation.*

Whether you are looking to refresh your appearance, address a specific skin concern, restore volume, manage hair loss or enhance your body contours, our team is ready to guide you through your aesthetic journey.

SKIN REJUVENATION | FACIAL AESTHETICS | HAIR RESTORATION | BODY CONTOURING | PERSONALISED CARE
