Violet's Medical Centre

OCCUPATIONAL HEALTH &
WORKPLACE WELLNESS

Protecting your *workforce.*

Supporting your business.
Nationwide coverage.

SERVICES GUIDE

GHANA

A healthy workforce is essential to *productivity, safety* and business growth and continuity.

We provide comprehensive occupational health and workplace wellness services to organisations across Ghana, helping employers meet workplace health and safety requirements while supporting the wellbeing of their employees.

Whether you require services at your workplace, at one of our designated facilities, or at a remote project site, our experienced healthcare team delivers professional, efficient and customised occupational health solutions with nationwide coverage.

Led by qualified and experienced *occupational health practitioners.*

HEALTH SURVEILLANCE

Identify health risks early. *Support a healthier, more productive workforce.*

Care that comes *to your people.*

i. At your workplace

ii. At our designated facilities

iii. At remote project sites

iv. Through mobile teams

Our experienced healthcare team delivers professional, efficient and customised occupational health solutions to organisations across Ghana — including remote and project locations.

Integrated occupational *health solutions.*

01

Pre-Employment *Medicals*

Ensure that prospective employees are medically fit for the demands of their intended roles.

Our pre-employment medical assessments can be tailored to specific job categories and workplace risks.

02

Exit *Medicals*

Exit medical examinations help establish an employee's health status at the end of their employment or assignment.

These assessments can assist organisations and employees in identifying occupational health concerns and documenting baseline health status, and could prevent financial losses.

03 · WORKPLACE CLINICS

In-House *Workplace Clinics*

We can establish and manage on-site workplace clinics to provide convenient access to healthcare for your employees.

Our service model can be customised to meet the needs, workforce size and operational structure of your organisation.

TAILORED TO

Your needs

SCALED TO

BUILT AROUND

Your operations

Drug & Alcohol *Screening*

Substance use can significantly affect workplace safety, productivity and employee wellbeing. We provide **confidential** drug and alcohol screening services for:

Testing programmes can be designed in line with your organisation's workplace policies and operational requirements.

i. Pre-employment assessments

ii. Random workplace testing

iii. Post-incident testing

iv. Reasonable-cause testing

v. Periodic employee screening

05 · MOBILE & REMOTE

Off-Site & *Remote Clinics*

For organisations operating at project sites, remote locations or temporary work sites, we provide mobile and off-site clinical services. Our healthcare teams can be deployed to support:

- *i.* Construction & project sites
- *ii.* Mining & industrial operations
- *iii.* Corporate offices
- *iv.* Manufacturing facilities
- *v.* Remote & rural work locations
- *vi.* Short-term projects & events

06

Corporate Health *Screenings*

Our comprehensive corporate health screening programmes help identify health risks early and promote a healthier, more productive workforce.

07

Corporate Health *Talks*

Knowledge empowers employees to make healthier choices.

"A healthy workforce is a *productive* workforce."

Corporate Social Responsibility *in Health*

We partner with organisations to design and implement impactful Corporate Social Responsibility (CSR) health initiatives.

FROM DESIGN TO IMPACT — WE SUPPORT YOU AT EVERY STAGE

i. Programme design

ii. Planning

iii. Implementation

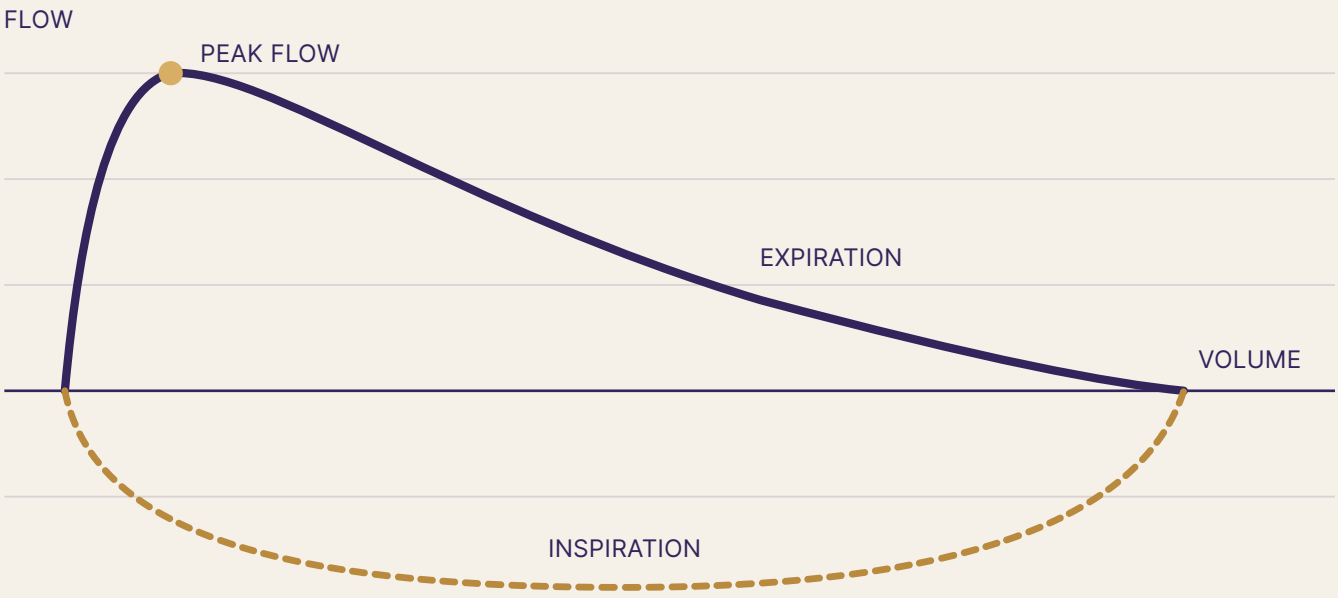

iv. Reporting

v. Impact assessment

We can support your organisation from programme design and planning through implementation, reporting and impact assessment.

Spirometry

Spirometry is an important occupational health assessment for evaluating lung function, particularly for employees exposed to dust, fumes, chemicals and other respiratory hazards.

ILLUSTRATIVE FLOW–VOLUME LOOP

OUR SPIROMETRY SERVICES CAN SUPPORT

i. Pre-employment assessments

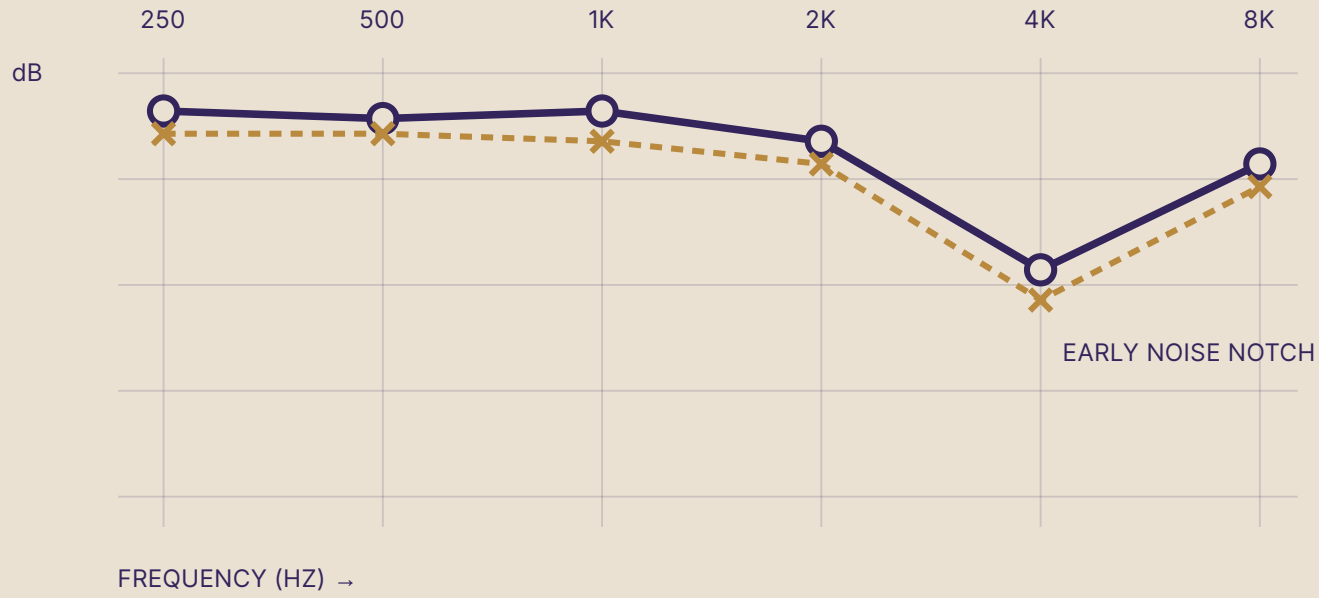

ii. Periodic occupational health surveillance

iii. Fitness-for-work assessments

iv. Respiratory health monitoring

Audiometry

Occupational noise exposure can lead to permanent hearing loss if not identified and managed early. We provide audiometric assessments to support workplace hearing conservation programmes.

ILLUSTRATIVE AUDIOGRAM

SERVICES INCLUDE

i. Baseline hearing assessments

ii. Periodic hearing tests

iii. Occupational health surveillance

iv. Fitness-for-work evaluations

v. Referral recommendations where necessary

Why partner *with us?*
